

FREQUENTLY ASKED QUESTIONS

It's too Risky..

You think being in business and being an entrepreneur is risky? Try working for someone else for 40 years and living on Social Security afterwards?
Now, that's risky!

I already invested in 401K,
403B etc..

Would you rather your money get taxed
NOW, LATER, or EXEMPT?

I already invested in stocks and
mutual funds?

Right now you have no guarantees on your money,
how do you feel about gambling with your
retirement?

Let me think
about it..

What do you have to think about? You have no
money saved up! How many more years do you
HAVE, to think about it?

Is this sales?
I'm not good at sales

I completely understand how you FEEL, I FELT the
same, but what I FOUND was that this company isn't
looking for salespeople. We don't train sales people,
we train agents how to help and educate families on
money.

I can't afford it

If I could show you how to increase your cash flow, would you give me an hour of your time?

I already have a financial planner

That's great! You are ahead of the game. A lot of our clients have financial advisors as well, and it's not my job to step on any toes, but because tax laws and products change so frequently doesn't it make sense to get a second opinion and see if there's something better out there?

Is this like Primerica?

That's a great question, why do you ask? Primerica is an insurance company and we are a broker dealer, which means that they offer a few mutual funds and their own term insurance. We offer hundreds of companies and can help people in any area of money, not just one. It's like comparing apples to oranges, does that makes sense? What time is better for you?

Is this a Pyramid/ MLM/ one of those things?

That's a great question! Pyramids are illegal. We're in the money business which is a heavily regulated industry. Are you familiar with Real Estate and that there's a broker/ agent relationship? Titan Insurance & Financial Solutions is structured like Real Estate except we teach you to become an agent and help families or become a broker and help families with an override income.

I have a negative experience with the industry or with your company

I am sorry you had such an opposite experience to mine. I can assure you that your situation was an isolated issue. My experience has been very positive. I have seen strong leadership, high integrity, a strong culture and I trust my trainer. I would not bring someone to you who I did not trust 100%. We should at least get together so you have a good idea of what our company is really about.

Does my spouse
have to be present?

Our presentations are designed for both husband and wife. In order for me to get properly trained I need to see the response of both husband and wife as well as observe their different questions. We can accommodate your schedule to include your spouse.

We would love to help, but
we are just too busy or we
can help in a few weeks.

I understand you are busy and I respect your time. I wouldn't ask for your time if it wasn't very important to me. I am very serious about this business and achieving my goals for my family and it would mean a lot to me if you could give me at least one hour of your time. My trainer is also very busy and is giving me a few hours of her time in the next 2 weeks. I am asking you because I value your opinion and I am very excited about sharing this great information with people I care about. What works better for you daytime or evenings?
